## PROJECTS

---

### ❖ INCIDENT MANAGEMENT SYSTEM

This project is a solution website for our clients. If they encounter any queries or blockers with our implemented projects, they can raise a ticket on the website. Our developers can then check and fix the issue. Developers will provide daily updates on the blockers so clients can check the status of their tickets and see whether the issues have been fixed.

### ❖ COLLEGE MANAGEMENT SYSTEM (CMS)

Developed a comprehensive system to manage student admissions, fee receipts, and issuance of Transfer Certificates and Bonafide Certificates. Implemented features for generating Daily Counter Reports (DCR) and streamlined administrative processes. Enhanced efficiency and accuracy in handling college operations, resulting in improved data management and user experience.
